1. NATURE AND CONTINUANCE OF OPERATIONS

Great Bear Resources Ltd. (the "Company") was incorporated under the Company Act (British Columbia) on December 6, 2001. On January 22, 2010, the Company changed its name from Great Bear Uranium Corp. to Great Bear Resources Ltd. On June 1, 2016, the Company retrospectively consolidated its share capital on the basis of one post consolidated common share for every five pre-consolidated common shares held. The Company's registered office and its principal place of business is located at 1020 - 800 West Pender Street, Vancouver, BC, Canada V6C 2V6.

The Company is a mineral exploration company with interests in mineral properties in British Columbia and Quebec, Canada. The Company's shares are listed on the TSX Venture Exchange ("TSX.V") under the trading symbol "GBR".

The Company is in the process of exploring its resource properties and has not yet determined whether the resource properties contain reserves that are economically recoverable. The business of mining and exploring for resources involves a high degree of risk and there can be no assurance that planned exploration and development programs will result in profitable mining operations. The recoverability of amounts capitalized for the resource properties and related deferred exploration costs are dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development of the properties and upon future profitable production or proceeds from the disposition thereof. Changes in future conditions could require material write-downs of the carrying values of resource properties.

2. BASIS OF PREPARATION

Statement of Compliance

The condensed interim consolidated financial statements of the Company have been prepared in accordance with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") for interim information, specifically International Accounting Standards ("IAS") 34 Interim Financial Reporting.

The condensed interim consolidated financial statements are presented in accordance with IAS 1 *Presentation of Financial Statements*. The Company has elected to present the 'Statement of Comprehensive Loss' as a single statement, 'Consolidated Statement of Loss and Comprehensive Loss.'

The preparation of financial data is based on accounting policies and practices consistent with those used in the preparation of the Company's recent audited Financial Statements for the year ended December 31, 2016. These condensed interim consolidated financial statements for the nine months ended September 30, 2017 should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016.

The condensed interim consolidated financial statements of the Company for the nine months ended September 30, 2017 (including comparatives) have been prepared by management, reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on November •, 2017.

Going Concern of Operations

These condensed interim consolidated financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to develop profitable operations.

Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, and other business and financial transactions that would assure continuation of the Company's operations and exploration programs. In addition, management closely monitors commodity prices of precious metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company if favorable or adverse market conditions occur.

2. BASIS OF PREPARATION (continued)

Going Concern of Operations (continued)

As the Company is in the exploration and evaluation stage, the Company has not identified a known body of commercial grade mineral on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company identifying a commercial mineral body, to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the properties. To date, the Company has not earned any revenues.

3. INVESTMENT IN EQUITY INSTRUMENTS

Available-for-sale investment consists of an investment in common shares of publicly traded companies, and therefore has no fixed maturity date or coupon rate. The fair value of the listed investment has been determined directly by reference to published price quotations in an active market. During the nine months ended September 30, 2017 the fair value of the investment decreased by \$948 (2016 – increased by \$6,858).

4. RECEIVABLES

Receivables as at September 30, 2017 consist of a GST receivable balance from the Federal Government of Canada in the amount of \$26,534 (December 31, 2016 - \$26,561).

5. EXPLORATION AND EVALUATION ASSETS (continued)

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyance history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing.

a) BA Property and Surprise Creek Property

The Company owns a 50% interest in the BA Property located in the Skeena Mining Division in the province of British Columbia.

The Company owns 50% of the Surprise Creek Property subject to a 1% NSR, which may be purchased by the Company. Surprise Creek Property is located in the Skeena Mining Division in the province of British Columbia, and is comprised of 19 mineral claims totaling 7,472 hectares.

In October 2016, the Company amended its Joint Venture Agreement with Mountain Boy Minerals Ltd. ("Mountain Boy"). Separate Joint Venture agreements were signed for the BA and Surprise Creek properties, and annual minimum work programs of \$250,000 are required on each project, to be paid for on a pro rata basis as per each company's ownership percentage, which at the time of signing was 50% in each property.

On June 1, 2017, the Company entered into an Agreement to grant an option to Mountain Boy to acquire the Company's 50% interest in and to each of the BA Property and Surprise Creek Property. Under the option agreement, Mountain Boy will pay in cash and in shares as follows:

The Company will retain a Right of First Refusal on the sale of both the Surprise Creek and BA properties, should Mountain Boy enter into sale agreement on either project in whole or in part with a third party.

The Joint Venture Agreement will be suspended during the period of the option, and if Mountain Boy elects not exercise an option or fails to make any payments or share issuances to the Company in respect of either optioned property, the joint venture between the Company and Mountain Boy will resume in respect of that property at 50% interest owned by each company.

On September 1, 2017, the Company announced that it has received final approval of the TSX Venture Exchange to grant the option to its joint venture partner, Mountain Boy Minerals Ltd., to acquire the Company's 50 percent interest in and to each of the "BA" and "Surprise Creek" joint ventures and associated properties.

5. EXPLORATION AND EVALUATION ASSETS (continued)

b) Dixie Lake Property

On November 20, 2015 the Company entered into an agreement to acquire the Dixie Lake mining claims in Ontario consisting of a 67% interest in 45 mining claims and a 100% interest in 4 newly staked mining claims. In order to acquire the interest, the Company must make the following cash payments and share issuances:

Due Date	Cash	Common Shares
November 2, 2015	\$ 4,000 (paid)	-
Within 7 days of executing the acquisition agreement	\$ 16,000 (paid)	-

November 20, 2018	\$ 30,000	-
November 20, 2019	\$ 40,000	-

On July 12, 2017, the Company entered into a Purchase Agreement with Newmont Canada Holdings, ULC ("Newmont") to acquire Newmont's 33% interest in the Dixie Lake project, located in the Red Lake district of Ontario, by paying \$80,000 over four years. The purchase can be accelerated at any time at the Company's discretion.

c) West Madsen Property

On December 29, 2016, the Company signed a Purchase Agreement to acquire 100% ownership of the West Madsen gold project in the Red Lake Gold District of Ontario, whereby the Company must pay \$70,000 cash (\$12,000 paid) and issue 100,000 shares (issued) over four years. On August 29, 2017, the Company entered into an Amending Agreement to the Purchase Agreement. Under the amendment, the Company will pay in cash and in shares as follows:

Due Date	Cash	Common Shares
Within 7 business days of August 29, 2017	\$ 12,000 (paid)	-
Within 7 business days of TSX approval	-	300,000 (issued)

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities for the Company are broken down as follows:

	Septemb	er 30, 2017	Decemb	er 31, 2016
Accounts payable to third parties	\$	94,841	\$	135,671
Accrued liabilities to third parties		289,772		297,174

Accrued liability to related parties (note 8)		7,825		3,125
	\$	396,114	\$	475,570

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES (continued)

Included in accrued liabilities is an amount of \$271,022 which has been outstanding for over six years. Management has disputed this balance owing and does not believe the Company is required to pay this amount.

The Company will continue to review current statutes and is seeking legal advice to determine when the amount can be de-recognized from the financial statements.

7. SHARE CAPITAL

On June 1, 2016, the common shares of the Company were consolidated such that one new common share was issued for every five common shares outstanding. After giving effect to the share consolidation, the issued capital of the Company as at December 31, 2016 was 12,194,966 common shares. Accordingly, the Company has effected the share consolidation in these consolidated financial statements as if it happened at the beginning of the periods reported, and disclosed all share capital, stock option and warrant information retrospectively, all on a post consolidated basis.

a) Authorized

Share capital consists of an unlimited number of common shares without par value.

b) Issued

Nine months ended September 30, 2017

On April 7, 2017, the Company issued 100,000 common shares at a deemed price of \$0.185 per share for a resource property (note 5c).

On August 4, 2017, the Company completed a non-brokered private placement and issued a total of 1,680,000 units at a price of \$0.25 per unit for gross proceeds of \$420,000. Each unit consists of one common share and one half of one share purchase warrant. Each warrant entitles the holder to acquire an additional common share for \$0.35 for a two-year period. The share purchase warrants will be subject to acceleration at the Company's discretion in the event the Company's common shares trade on a volume—weighted average price basis of \$0.45 per share for a period of 10 consecutive trading days.

On September 20, 2017, the Company issued 300,000 common shares at a deemed price of \$0.35 per share for a resource property (note 5c).

During the period, 621,032 common shares were issued for gross proceeds of \$155,271 due to exercise of warrants.

Year ended December 31, 2016

On February 16, 2016, the Company issued 20,000 common shares at a deemed price of \$0.10 per share for a resource property. On March 11, 2016, the Company issued 40,000 common shares at a deemed price of \$0.20 per share for a resource property.

On July 18, 2016, the Company completed a non-brokered private placement and issued a total of 3,005,966 units at a price of \$0.15 per unit for gross proceeds of \$450,895. Each unit consists of one common share and one share purchase warrant. Each warrant entitles the holder to acquire an additional common share for \$0.20 for a three-year period. The share purchase warrants will be subject to acceleration at the Company's discretion in the event the Company's common shares trade on a volume—weighted average price basis of \$0.30 per share for a period of 10 consecutive trading days.

On September 16, 2016, the Company completed a non-brokered private placement and issued a total of 4,800,000 units at a price of \$0.20 per unit for gross proceeds of \$960,000. Each unit consists of one common share and one share purchase warrant. Each warrant entitles the holder to acquire an additional common share at \$0.27 for a two-year period. The share purchase warrants will be subject to acceleration at the Company's discretion in the event the Company's common shares trade on a volume-weighted average price basis of \$0.40 per share for a period of 10 consecutive trading days.

7. SHARE CAPITAL (continued)

d) Stock options

The Company has adopted an incentive stock option plan (the "Option Plan") dated September 30, 2010 which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with TSX-V requirements, grant to directors, officers, employees and consultants to the Company, non-transferable options to purchase common shares. Included in the Option Plan are provisions that provide that the number of common shares reserved for issuance will not exceed 10% of the then issued and outstanding common shares of the Company. At the discretion of the Board of Directors of the Company, options granted under the Option Plan can have a maximum exercise term of 10 years from the date of grant. Vesting terms are determined at the time of grant by the Board of Directors.

Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility which was estimated based on historical volatility of the Company's publicly traded shares. Changes in the underlying assumptions can materially affect the fair value estimates and therefore, in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

10. COMMITMENTS

During the year ended December 31, 2014, the Company signed a lease agreement, and then sublet the premises effective July 1, 2016 to the end of the lease term, February 29, 2020.

11. FINANCIAL AND CAPITAL RISK MANAGEMENT

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, currency risk, and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

a) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains sufficient cash balances to meet current working capital requirements. The Company is considered to be in the exploration and evaluation stage. Thus, it is dependent on obtaining regular financings in order to continue its exploration and evaluation programs. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash are available on demand for the Company's programs, and are not invested in any asset backed commercial paper.

b) Credit Risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash and receivables. The Company maintains its cash with high-credit quality financial institutions, thus limiting its exposure to credit risk on such financial assets.

As at September 30, 2017, the Company's receivables consist of \$26,534 (December 31, 2016 - \$26,561) from Canada Revenue Agency. Receivables from third parties and related parties are periodically reviewed by management. Currently, there is no indication that the above amounts are not collectible.

c) Interest Rate Risk

The Company's exposure to interest rate risk arises from the interest rate impact on its cash. The Company's practice has been to invest cash at floating rates of interest, in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return for shareholders. There is minimal risk that the Company would recognize any loss as a result of a decrease in the fair value of any guaranteed bank investment certificates included in cash, and restricted cash as they are generally held with large financial institutions.

d) Price Risk

Investments in equity instruments, classified as at fair available-for-sale financial assets, are listed on public stock exchanges, including TSX-V and OTC-QB. Recently, the markets have experienced extreme volatility. Therefore, sensitivity analysis is performed using 15%. For such investments, a 15% increase in equity prices as at September 30, 2017 would have increased investments in equity instruments by \$31,200. An equal change in the opposite direction would have had the equal but opposite effect on the amounts shown above.

e) Fair Value Hierarchy

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

The fair value of cash and investments in equity instruments is measured based on level 1 of the fair value hierarchy.

e) Fair Value Hierarchy (continued)

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at September 30, 2017 and December 31, 2016:

	Classification (1)	Fair Value Hierarchy	Septemb	er 30, 2017 Fair Value	December 31, 2016 Fair Value		
Financial Assets:	EV/TDI	4	¢	E0E 044	c	765 076	
Cash Investments in	FVTPL	1	\$	525,211	\$	765,976	
equity instruments	AFS	1		208,010		8,958	

⁽¹⁾ FVTPL = Financial asset at fair value through profit or loss; LR = Loans and receivables; AFS = Available-for-sale; OL = Other liabilities

There were no transfers between Level 1, 2 and 3 in the period.

The estimated fair value of financial instruments approximates their carrying values due to the short-term nature of these instruments.

12. CAPITAL DISCLOSURES

The Company manages its capital to safeguard the Company's ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise.

The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through short-form prospectuses, private placements, sell assets, incur debt, or return capital to shareholders. There were no changes in the Company's approach to capital management during the period. In the management of capital, the Company includes the components of shareholders' equity, as well as cash. As at September 30, 2017, the Company is not subject to externally imposed capital requirements.

13. SEGMENTED INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. All of the Company's operations are within the mineral exploration sector. The Company's mining exploration operations are centralized whereby the Company's head office is responsible for the exploration results and for providing support in addressing local and regional issues. The Company's resource properties are located in British Columbia and Ontario, Canada.

14. SUBSEQUENT EVENTS

On October 11, 2017, the Company reported that it granted an aggregate of 210,000 stock options to officers, directors, advisors and consultants of the Company, exercisable at \$0.36 per share for a period of five years. The options are subject to a four-month hold.
